

## YOUTH CAMP IN UGANDA IN KAMPALA

We arrived in Uganda on Monday, the 20 January 2020. We went to Speke Resort Munyonyo, where the youth camp was held by Norec. We spent 5 days interacting with youth from all over the world. The youth camp was about getting to know people who will be going on exchange to other countries. We were in different activities where I learnt about challenges I will face while in the exchange country, and how to deal with these challenges. The camp was productive because I met people from Kenya, and they told me how Kenyan people are. They also told me what things I should react to, and what I should expect from Kenyan people.

## ARRIVAL IN NAIROBI

We arrived in Nairobi on 24th of January 2020. I was so tired and I was so excited to finally be in my first exchange country. I could not wait to see how friendly the people of Kenya are. I was so tired. I wanted to rest when I got here.

## INTRODUCTION TO DEYI-K

In my first week we went to see the office of DEYI-k where they told us about the mission and vision of Destined Youth Initiative Kenya; we got to know people who work inside the program. They told us which areas and age groups they work in to help the community.

## ENTREPRENEURSHIP TRAININGS

So far, I have done 3 trainings in two places, Kangemi and Kitusuri. All the classes were good. I was able to learn through the training, although I was expecting big attendance, and we got small numbers of dream girls. 70% of the dream girls were active. We tried to make others feel the training will help them in life.

## HOW IS NAIROBI

Nairobi is a nice city everyone wants to go to. It has a lot of people, most of them are business minded. Kenyans love to work hard.
